## Reporting Tips

### Report of Deposits and Vault Cash—FR 2900

---

Reviewing the following FR 2900 line items will help you save time by eliminating common errors improving reporting accuracy:

#### B.1 - Cash Items in Process of Collection (CIPC)

- Exclude the following items:
  - ACH pre-posted items when deposits have not been credited to the customer
  - Returned items, drawn on the reporting institution, for insufficient funds (NSF)
  - Credit cards or debit slips in process of collection
  - Other assets (including currency and coin)
  - Suspense Accounts
  - Negative balances
  - Noncash items
- Reporting zero for item B.1 is often indicative of incorrect reporting. Zero would only be accurate if immediate credit is received for each cash item in process of collection; however, in most cases, immediate credit is actually received on the next business day.
- Reporting identical CIPC figures for an entire report week is likely incorrect due to daily volatility associated with CIPC.

#### D.1 – Vault Cash

- Include **Cash held in ATMs**

#### C.1 – Time Deposits Less than \$100 thousand

- Line item C.1 should NOT equal to the balance of Total Time Deposits at your institution.

#### Annual Items

- An addition 3 lines are required for the report that includes the 6/30 (see image below).
- For additional information on line items E.1 and E.1.a, see **Worksheet for Preparing Annual Items** on the report form instructions on page ITEM-12.
