

The newest edition of our Services Directory is now available on our Internet site at <http://www.stlouisfed.org/about/directories.html>. Different versions of the directory for each of our four offices are available through this link for downloading, viewing and printing. This e-mail notification replaces hard copy mailings to CEOs and operations officers. Our Cash and Check departments will continue to send copies of the directory in their shipments to customers.

This edition reflects changes in staff, title and responsibilities over the past few months. We welcome your feedback on the directory. If you have any questions or comments, please call our Customer Service Program Office toll-free at 1-800-333-0810 and key in extension 44-8634.
