CHART
SHOWING FOR THE UNITED STATES AND FOR EACH STATE,
WITH DISTINCTION OF SEX, THE RATIO
BETWEEN THE TOTAL POPULATION OVER 20 YEARS OF AGE
AND THE NUMBER OF PERSONS REPORTED AS ENGAGED IN EACH PRINCIPAL CLASS OF
GAINFUL OCCUPATIONS
AND ALSO AS
ATTENDING SCHOOL.
Compiled from the Return of Population of the Ninth Census 1870
by
FRANCES WALKER.

Note: The darker spaces represent the proportion of the population which is accounted for as engaged
in gainful occupations or as attending school. The shaded intervals between the inner and outer spaces
represent the proportion of the population not so accounted for.
